

INSPECTION AND ACCEPTANCE OF CONCRETE PIPE SEALERS

GENERAL

Concrete pipe sealers for use as detailed on Standard Road Plan, RF-14, shall meet the requirements of section [4149.08](#) of the Standard Specifications.

ACCEPTANCE

Acceptance of concrete pipe sealers for use on Department of Transportation projects will be on the basis of manufacturer and brand name approval.

Approved manufacturers and brand names will be listed in [Appendix A](#).

MANUFACTURER AND BRAND NAME APPROVAL

Manufacturer and brand name approval will be based on test results obtained on a one-liter (one-quart) sample submitted by the manufacturer to the Office of Materials for testing.

An approval will remain in effect unless withdrawn because of deficient test results on monitor samples.

MONITOR SAMPLING & TESTING

The Office of Materials may sample and test concrete pipe sealers for manufacturer and brand name approval monitoring purposes.
